

Decide whether the relation is a function.

NO 1) $\{(-8, 2), (-8, 8), (-1, -5), (4, -7), (9, 7)\}$

1 = yes
2 = NO

Determine whether the relation is a function.

2)

Solve the problem.

3) Find $f(3)$ when $f(x) = x^2 + 5x + 3$.

$$9 + 15 + 3 = 27$$

4) Which of the following graph are functions?

A.

B.

C.
