STA 2023 – (OPTIONAL) Preclass Assignment 1: Pants on fire???

Flip a coin 200 times and record the results OR create *fake* results and make it look like you flipped a coin 200 times.

Record the results in a 10 row by 20 column table with HEADS represented by an X and TAIL represented by an O.

Bring it to class, I will try and tell if you had real or fake data.
